

Energy-Smart Homes Trail

If you would like to find out how to save money by saving energy, and upgrade your home for greater energy efficiency, look out for next month's Energy-Smart Homes Trail in the Thornbury area on the **weekend of 19th - 20th October**. Sustainable Thornbury is looking for volunteer stewards to help run the event.

Sustainable Thornbury is organising the Trail in partnership with South Gloucestershire Council. People following the Trail will be able to see and talk to householders in a number of homes which have put in various energy saving features. You will be able to find out from local people how successful the energy saving has been and about any problems they have encountered.

Each householder will have a volunteer steward to help organise the event. Sustainable Thornbury is looking for people willing to assist on the afternoon of Saturday and/or Sunday 19th/20th October. You don't have to be an energy expert – we just need a friendly face! If you can give some time please contact Marian on 01454-412165 or email stewards@sustainablethornbury.org .

There is still room for your house to be included so if you have put in energy saving measures and would like to show other people, please contact Raymond on 01454-852015 or email warmhomes@sustainablethornbury.org
